EDUCATION

University Of Lagos   **Lagos, NG**
Bachelor Of Science in Physics   *Graduation Date: Aug 2025*

WORK EXPERIENCE

HNG Internships   **Lagos, NG**
Data Analyst Intern   *Jun 2024 - Aug 2024*

- Participated in a team project to collate and mine data from various sources, including weather data, to successfully predict the next flooding incident with 90% accuracy.
- Collaborated with fellow interns to analyze and integrate large data sets into a user-friendly website, resulting in a 20% increase in website traffic within the first month.
- Utilized advanced statistical techniques to analyze weather patterns and flooding incident trends, providing valuable insights to improve emergency response strategies.

PROJECT EXPERIENCE

PwC Switzerland | Documents   **Remote**
Data Analyst Intern   *Jul 2024 - Sep 2024*

- Conducted in-depth analysis of customer satisfaction, retention rates, and churn data, identifying key trends and insights to drive strategic decision-making for the company.
- Utilized advanced statistical methods to analyze customer feedback data, resulting in a 10% increase in overall customer satisfaction scores.
- Collaborated with cross-functional teams to create a predictive model based on the churn dataset, which reduced customer attrition by 15% within the first quarter of implementation.

Tata Group | Documents   **Remote**
Data Visualzation Intern   *Sep 2024 - Oct 2024*

- Developed and executed a comprehensive data visualization strategy for Tata Consultancy Services, resulting in a 20% increase in client satisfaction metrics.
- Prepared detailed reports and visual aids for client senior leadership meetings, leading to a 15% improvement in decision-making efficiency.
- Utilized advanced software tools to create interactive and impactful data visuals that assisted executives in identifying key opportunities, resulting in a 10% increase in revenue generation.
